

If Only You Would Listen (Reprise)

Tomika:

I was lost, lost and in pain.
So much hurt bottled inside.
All the things I should've said
I just kept trying to hide

And I thought nobody could
But you... You understood

I needed to share, and only you would listen
Hoped someone would care, and only you would listen
You raised my voice up
Taught me not to fear
I've learned who I am because you're here

I needed respect and only you would listen
I couldn't connect and only you would listen
You gave us voices
Helped us make them clear

You gave us voices
Helped us make them clear
You've taught us so much since you've been here
